The General Assembly is a decision-making organ that meets every year. It sets the functioning rules and adopts ICOM's Strategic Plan every three years at the General Conference.

It elects the members of the Executive Council and provides it with guidelines through a set of resolutions.

The General Assembly takes place every year simultaneously with the annual meeting of the Advisory Committee and is the privileged gathering place of ICOM members.

The 2015 annual meeting (Advisory Committee and General Assembly) was held from 1st to 3rd June, 2015 in UNESCO Headquarters in Paris. Mrs. Sanuja Kasthuriarachchi, Director, Department of National Museums participated for that meeting as the president of ICOM National Committee – Sri Lanka.
